

# We know what it takes to craft your best product.

Our brewery and distillery partners receive access to an assortment of cleaners and sanitizers that keep yeast and bacteria at bay.

## Specialty Products for Breweries and Distilleries:

### CIP PRODUCTS

- 1 Circulate**  
A heavy duty caustic cleaner used to prevent water hardness and beer stone deposits from forming.
- 2 A-CIP**  
A circulation cleaner specially-formulated to dissolve beer stone, milkstone, and a variety of inorganic deposits.

### FOAMING CLEANERS

- 3 Brewfoam**  
A chlorinated alkaline cleaner designed to remove greasy, oily, and proteinaceous soils from the surface of your equipment.
- 4 Brewfoam Descaler**  
A high-foaming detergent that leaves the surface of your equipment bright and shiny.

# We understand the need to clean.

We provide the cleaners and sanitizers, solutions, and service you need to keep your facility running smoothly at all times. Essentially, we'll keep your equipment clean and facility safe, so that you can focus on crafting your best product.

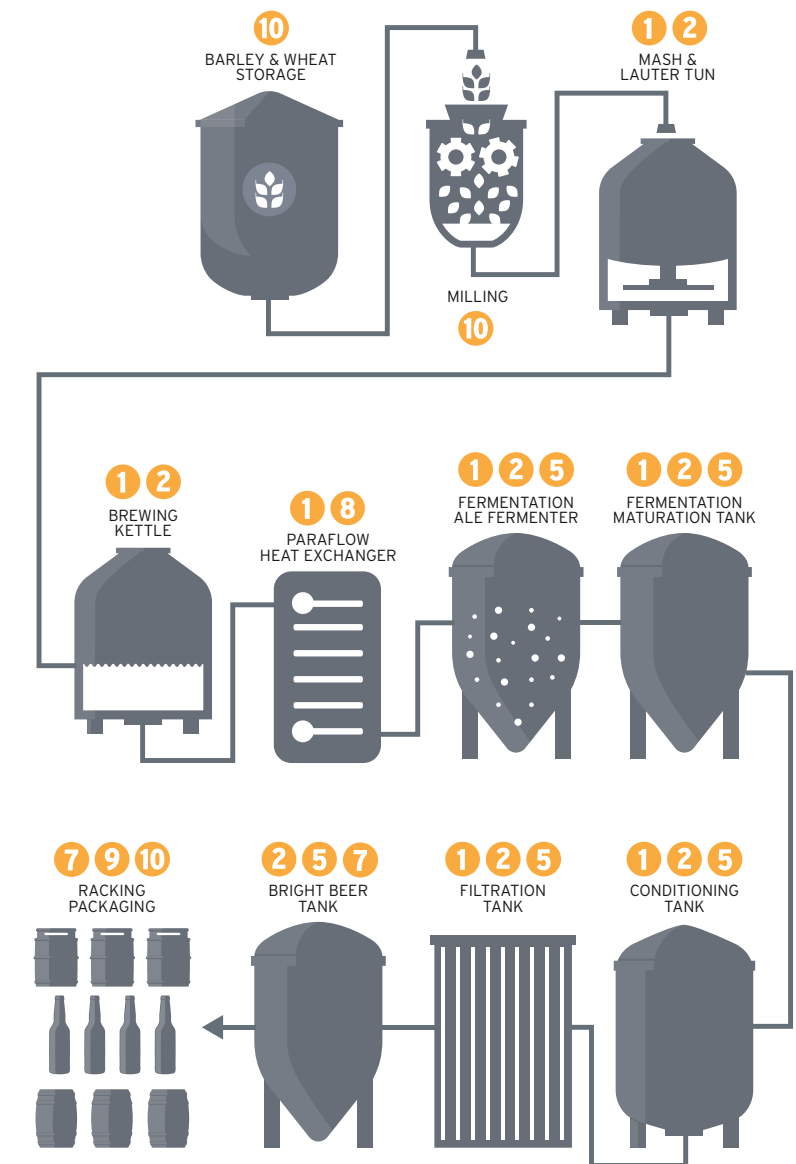

### SANITIZERS

- 5 Peracetic Acid Sanitizer**  
An EPA-registered sanitizer perfect for preventing the formation of bacteria, yeast, and mold in pipes and tanks.
- 6 Iodine Sanitizer**  
An EPA-registered sanitizer perfect for circulation through tanks and lines, as well as on food contact surfaces and equipment.

### SPECIALTY PRODUCTS

- 7 TLC - Tank & Line Cleaner**  
A specially-blended, softer alternative to heavy caustic circulation cleaners.
- 8 Oxygen Boost**  
An oxidizing additive to improve the cleaning performance of alkaline and acid cleaners, effective at aiding in the removal of proteinaceous soils.
- 9 LSR - Last Step Rinse**  
An acid anionic formula for rinsing kegs, draft lines, brewing tanks and lines. Helps eliminate odors and flavors while leaving equipment fresh and sanitary.
- 10 NBD - Neutral Brewer's Detergent**  
A unique and versatile product that can be used everywhere from soaking equipment to foaming applications. A great alternative cleaner to caustic formulas.
