

Brewfoam Descaler

For Brewers

sisbrew.com

DESCRIPTION

Brewfoam Descaler is a specially blended high foaming acid detergent designed to remove inorganic scale deposits, such as calcium and magnesium, from equipment surfaces, leaving the stainless steel bright and shiny. The high foaming characteristics ensure maximum coverage and contact time.

DIRECTIONS

RECOMMENDED USE: Use 2 - 6 ounces per gallon of water. Foaming equipment is recommended for best results. Can be used with warm-hot water not exceeding 140°F. Apply foam liberally to exterior of equipment. Allow 10 - 15 minutes of contact time (reapply foam if drying or runoff occurs). Thoroughly rinse equipment with clean water. We also recommend using a foaming alkaline cleaner, such as Brewfoam, for best overall results.

APPLICATIONS

- > Foam cleaning to remove inorganic soils from tank and line exteriors
- > Removes scale from surfaces
- > Cleans and deodorizes floor drains

SPECIFICATIONS

Color **Reddish Orange**
Fragrance **Mild**
pH Range **< 1.0**
Dilution **2 - 6 oz. / gal.**
Density **9.67**

PACKAGING

4/1 gallon **BPFC43-41**
15 gallon **BPFC43-15**
